

# JAMES MITCHELL

CYBERSECURITY EXPERT

+1 (415) 555-2345 | james.mitchell@email.com | San Francisco, CA | linkedin.com/in/jamesmitchell

## WORK EXPERIENCE

### Senior Cybersecurity Analyst

July 2020 – Present

*TechSecure Solutions, San Francisco, CA*

- Lead security operations and incident response, reducing cyberattack incidents by 40%.
- Implemented advanced threat monitoring and response strategies, improving detection by 30%.
- Conducted regular vulnerability assessments and penetration testing to identify potential weaknesses.
- Collaborated with cross-functional teams to develop security protocols and improve overall network safety.
- Provided training to internal staff on cybersecurity best practices and policies.

### Cybersecurity Analyst

March 2018 – June 2020

*SecureNet Solutions, San Francisco, CA*

- Monitored and analyzed network traffic to identify security threats and vulnerabilities.
- Developed incident response plans and contributed to disaster recovery operations.
- Performed security audits and ensured compliance with industry standards and regulations.
- Collaborated with IT teams to patch and update security systems and software.

### IT Security Intern

June 2017 – February 2018

*SecureTech, San Francisco, CA*

- Assisted in monitoring network systems for potential vulnerabilities and malicious activity.
- Contributed to security policy development and documentation.
- Performed routine security system checks and updates to ensure network integrity.

## EDUCATION

Master of Science in Cybersecurity

Graduated: May 2020

University of California, Berkeley, CA

Bachelor of Science in Computer Science

Graduated: May 2017

University of California, Berkeley, CA

## SKILLS

- Network Security & Risk Management
- Penetration Testing & Vulnerability Assessments
- Incident Response & Disaster Recovery
- Threat Monitoring & Intrusion Detection
- Security Information & Event Management (SIEM)
- Firewall Management & VPNs
- Compliance & Regulatory Standards (GDPR, HIPAA, PCI-DSS)
- Programming (Python, Bash, PowerShell)
